INTRODUCTION

The 2018-2022 Educational Project design emerges from a systematic, participatory and sustained process of action/reflection, based on the monitoring and evaluation of the work carried out, active listening of the community and partners involved, and an external evaluation process. This, in turn, will allow to redefine the Schools' Cluster's profile and strengthen the engagement and commitment of the educational community towards a project which seeks to provide identity, be shared, and be diverse simultaneously. Thus, taking into account as references the Students' Profile by the End of Compulsory Schooling, The National Strategy for Citizenship Education, and what is stated on the Decree-Law No 55/2018 of July 6, we intend our educational project to assert itself as:

- An instrument of innovation and change, an aggregator of wills and efforts, which is able to combine national educational policy interests with the schools' cluster's factual needs and the responsibility for its implementation.
- An effective response to the educational community's needs, scaffolded by and built on the sequence of different perspectives on the organization and its functioning, sustained by the Will and the Knowledge of each educational partner.
- Implementing an educational policy centered on the individual and human dignity and that promotes the construction of a humanist-based profile that guarantees equal access and opportunities and the right to learning and academic success.
- The guarantee of a truly inclusive school promoting better learning for all.
- The promoter of skills development to face the new challenges of society by providing young people with the necessary skills and tools to solve complex problems.
- The promoter of skills to question established knowledge, integrate emerging knowledge, and communicate effectively.
- The promoter of curriculum crossover, based on the principle that each one contributes to developing all the areas of competence of the Students' Profile by the End of Compulsory Schooling.

We intend to build a realistic and feasible document. One that defines a set of goals and courses of action that follow the principles and stimulate the development of the areas of competence embodied in the guideline document aforementioned¹

¹ Students' Profile by the End of Compulsory Schooling

I. MISSION

The Schools' Cluster's mission is to find the appropriate solutions to provide a public education service, based on four pillars that must be understood in their various relationships and implications: **Learning to Know, Learning to Do, Learning to Live Together, and Learning to Be**. The ultimate goal is to develop autonomous and active citizens, able to adapt to the new social and professional challenges by harnessing a lifelong learning approach.

II. VISION

With the eyes set on the future, to bring out the best in everyone it is necessary to adopt a perspective of all-round development of young people. This implies that the young person is perceived as a citizen that is:

- Free, autonomous, responsible, self-conscious, and aware of the surrounding world;
- Knowledgeable of multiple literacies which allow him/ her to analyze and critically question reality, assess and select information, formulate hypotheses and make decisions based on his/ hers everyday life;
- Able to deal with change and uncertainty in a fast-paced changing world;
- Able to recognize the importance and the challenge jointly offered by the Arts, Humanities, Sciences, and Technology to develop the social, cultural, economic, and environmental sustainability of the country and the world;
- Able to think critically and autonomously, as well as in a creative manner; able to work collaboratively and has communication skills;
- Fit to continue lifelong learning, and regards it as a critical factor in their personal development and social participation;
- Able to know and respect the fundamental principles of a democratic society and the rights, guarantees, and freedoms on which it is based upon;;
- Someone who values the respect for human dignity, the exercise of full citizenship, solidarity with others, cultural diversity, and the democratic debate;
- Someone who rejects all forms of discrimination and social exclusion.²

² In "Students' Profile by the End of Compulsory Schooling."

III. VALUES

The following are the reference values of this educational project:

- Responsibility and integrity;
- Commitment;
- Curiosity, reflection and innovation;
- Citizenship and participation;
- Freedom.

IV. CHARACTERIZATION OF THE EDUCATIONAL TERRITORY

4.1. The Schools' Cluster of Albergaria-a-Velha

The Schools' Cluster of Albergaria-a-Velha was constituted on June 28, 2012, by dispatch of the Secretary of State for Education and School Administration and covers four civil parishes: Albergaria-a-Velha and Valmaior, Alquerubim, Angeja, S. João de Loure and Frossos.

It is composed by the Secondary School of Albergaria-a-Velha (SSAAV), the Basic School of Albergaria-a-Velha (BSAAV), the Basic School of São João de Loure (BSSJL), the Kindergartens and Basic Schools of the 1st Cycle of the civil parishes of Albergaria-a-Velha and Vale Maior, Angeja, S. João de Loure and Frossos, and Alquerubim.

4.2. The Context

The Municipality of Albergaria-a-Velha has the advantage of being well served by road infrastructures that cross it. It is a strategic stopping point for European, national, and inside the council transports. This geostrategic position has allowed the constitution of a healthy and well structured industrial area that is taking advantage of its location to market its products.

The south of the municipality is characterized by the fertility of the fields bathed by the rivers Caima and Vouga, favoring agriculture and cattle raising. The secondary sector is the most represented, with 56.2% of the active population taking part in it, mainly due to the fact that the municipality is set in a region with strong industrial traditions. The primary sector occupies only 13.6% of the active population while the tertiary industry 30%. Among the most noticeable economic activities in the secondary sector is the manufacturing industry (74%). The manufacturing of metal products, primary non-ferrous metal industry, textile industry, and wood industry stand out in the area. Companies are predominantly small and medium-sized - 75% use a working force constituted by less than 20 workers. The manufacturing industry is mainly concentrated on the civil parishes of Albergaria-a-Velha and Branca; these hold 90% of the work posts.

In the municipality, the most practiced activities in the secondary sector are casting, confection, metallomechanics, manufacturing of various equipment, wood processing, paper manufacturing, furniture manufacturing and restoration, ceramic production, among others. The civil parishes are served by regular passenger transports, which are also leased for students' transportation during school terms.

4.3. Socio- educational Indicators

Considering the Official Census of the Portuguese Population (2011), since the last census in 2001, the municipality population had a variation of 2,5% (from 24638 inhabitants to 25252).

The percentage of children up to 14-years old had a variation of -6.5% and -26% for young people up to 24- years old, 8% in what regards adults up to 64 years of age, and 22% in what concerns adults 65 years old and up. The illiteracy rate was at the time 4.2%

Finally, according to PORDATA data, there is still a decreasing trend in the municipality's population, presently 24,528 inhabitants.

4.4. Schools of the Cluster

Typology of the Educational Establishments	Educational Level(s)
Pre-school Education	• Kindergarten of Albergaria-a-Velha
	• Kindergarten of Frossos
	• Kindergarten of Pinheiro
	• Kindergarten of S. João de Loure
	• Kindergarten of Sobreiro
	• Kindergarten of St António
1 st Cycle of Basic Education	• Basic School of Sobreiro
	• Basic School of Cruzinha
	• Basic School of Igreja
	• Basic School of St António
Educational Centers (Pre-School and 1 st Cycle of Basic Education)	• Educational Center of Alquerubim
	• Educational Center of Angeja
Basic Schools (1 st , 2 nd and 3 rd Cycle of Basic Education)	• Basic School of Albergaria-a-Velha (1 st and 2 nd CBE)
	• Basic School of S. João de Loure (1 st , 2 nd and 3 rd CBE)
3 rd CBE and Secondary Education	• Secondary School of Albergaria-a-Velha (headquarters)

Table 1- Identification of the educational establishments of the Schools' Cluster.

The Schools' Cluster of Albergaria-a-Velha, which covers the entire municipality, comprises fifteen education and teaching establishments: six kindergartens, four basic schools with pre-school and 1st cycle education, two basic schools with 1st cycle, one basic school with 1st and 2nd cycles of basic education, one basic school with 1st, 2nd and 3rd cycles and one secondary school with 3rd cycle (the headquarters school).

General Council

Director

Pedagogical Council

Curricular Departments

- Pre-school Department - Group 100
- 1st Cycle Department - Groups 110 and 120
- Languages Department - Groups 210, 220, 300, 330 and 350
- Expressions Department - Groups 240, 250, 260, 530, 600, 620 and 910
- Mathematics and Experimental Sciences Department - Groups 230, 500, 510, 520 and 550
- Social Sciences and Humanities Department - Groups 200, 290, 400, 410, 420 and 430

Administrative Council

Administrative Services

Sub-director

- Basic School of S. João de Loure;

- 3rd Cycle;

- Monitoring and supervising the constitution of the 3rd Cycle classes;

- Read and sign minutes of the 3rd Cycle pedagogical structures;

- Call and preside meetings that the sub-director deems necessary to the smooth operation of the various areas he/she supervises/ coordinates;

- Discipline (Multidisciplinary Team, Conflict Management, GAA);

- Monitor and manage the DGAE^{TN7} teachers' recruitment platform and other human resources management platforms;

- Basic School of SJL facilities and equipment;

- School Libraries;

- *Parasaberes*;

- Adult Education and Training;

- Psychology and Guidance Services;

Deputy Director

- Pre-school;

- 1st Cycle Basic Education (CBE);

- Pre-school and 1st CBE Facilities and Equipment;

-
- Read and sign minutes of the Pre-school and 1st Cycle pedagogical structures;
 - CEA (Curriculum Enrichment Activities)

Deputy Director

- Secondary Education / Professional Education;
- Monitor and supervise the constitution of secondary classes;
- Manage the national exams' platform;
- Read and sign minutes of the Secondary pedagogical structures;
- To proceed with the analysis and selection of proposals for the supply of goods or services, in particular for the buffet, stationery, reprography, hygiene/cleaning, and maintenance and repair services;
- Monitor public procurement procedures and the management of electronic platforms;
- Manage the rental protocols of sports facilities, auditorium, and others at the school's headquarters;
- School Social Action;
- Administrative Council/ All matters/ competencies of the Administrative Council, except those which by law are the competencies of the Director;
- Secondary School facilities and equipment;
- Personalised Support Office
- Non-teaching Staff.

Deputy Director

- Internal Evaluation;
- 2nd Cycle;
- Monitor and supervise the constitution of 2nd Cycle classes;
- Read and sign minutes of the 2nd Cycle pedagogical structures;
- To direct the security services at school in articulation with the local structure of the National Civil Protection Authority, the local territorial unit of the National Republican Guard^{TN8} and with the Association of Volunteer Firefighters;
- Manage DGAE's platform for teaching and specialized staff recruitment purposes;
- Document Management;
- Manage DGAE's platform for hiring reserve recruitment of teachers / specialized staff;
- Special Education;
- Documentary management;
- School Sports;
- Basic School of Albergaria-a-Velha facilities and equipment.

Translator's Notes (TN)

TN1

Schools' Cluster of Albergaria-a-Velha - SCAAV (AEA AV, Agrupamento de Escolas de Albergaria-a-Velha). Schools' Cluster is an organizational unit constituted by schools of different educational levels (ranging from pre-school to secondary). The educational establishments share a joint pedagogical project, have autonomous management and administration bodies.

TN2

CEF - Curso de Educação e Formação de jovens (Education and Training Course for Young People).

TN3

Saltitar - hopping in Portuguese.

TN4

Chapinhar - splashing in Portuguese.

TN5

Optimizing - designated in the document by the expression "Maximizando."

TN6

Follow-up and Mediation Group - FMG (Grupos de Acompanhamento e Mediação, GAM).

TN7

DGAE - Direção-Geral da Administração Escolar; it is a state's regulating body for

education (General Direction for School Administration)

TN8

National Republican Guard (GNR, Guarda Nacional Republicana)

TN9

MCRE - Moral and Catholic Religious Education

TN10

PHG - Portugal's History and Geography

TN11

ME - Music Education

TN12

FL - Foreign Language

TN13

WRT- Work-related training

TN14

BOM - Business Organization and Management

TN15

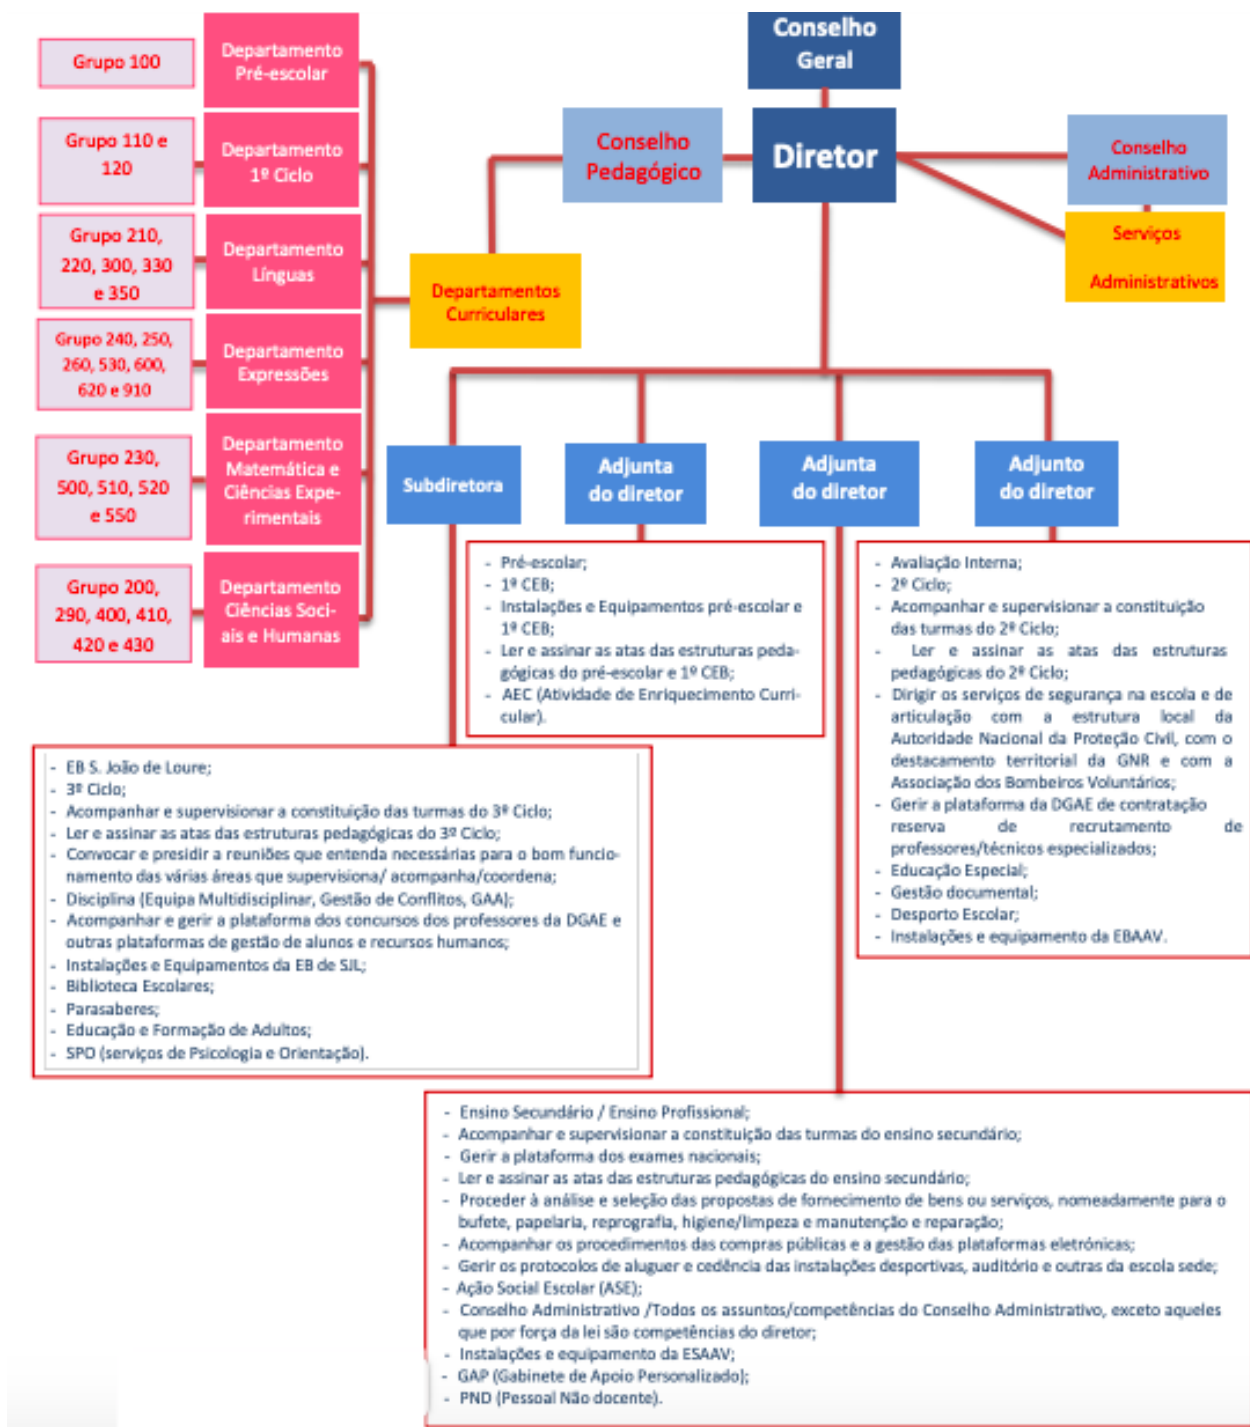

CPOS - Communication at the Point of Sale

TN16

HCA - History of Culture and Arts

TN17

DCA - Design, Communication, and Audiovisual

VI. THE EDUCATIONAL COMMUNITY

6.1. The Teaching Staff

The majority of the teaching staff is part of the Schools' Cluster's personnel. At the start of the 2017/2018 school year, there were 236 teachers, 51 men, and 185 women, ranging between 35 and 66. Currently, among all the teaching staff, 16 teachers are dedicated to Inclusive Education. It is also worth mentioning that 189 teachers are part of the Schools' Cluster's staff while 47 are contracted teachers. In terms of qualifications, 28 teachers have either completed a Master's or a Ph.D. degree.

6.2. The Non-teaching Staff

The non-teaching staff is comprised of eight administrative assistants and 69 operational assistants. Of these, 52 are under an indefinite employment contract regime for public functions' performance, and 17 are hired under a fixed-term contract. In addition to these, 28 municipality officers perform tasks within the field of pre-school education. In all, there are 87 women and ten men, aged between 27 and 65 years. In terms of academic qualifications, it should be noted that the majority of the staff members have completed the basic education.

6.3. Student Population

The SSAAV includes the following levels of education: pre-school education, 1st, 2nd, and 3rd cycles of Basic Education and Secondary Education, regular and professional education. There is a total of 1987 students in the schools' cluster. Among them, 51 are of foreign nationality, and 13 speak Portuguese as a foreign language. Table two presents students' distribution during the school years of 2015/2016, 2016/2017, and 2017/2018, taking into account the educational stage and their framing within inclusive education and school social action.

Education Cycle	School Year			Students with SEN			Other Nationality		
	15-16	16-17	17-18	15-16	16-17	17-18	15-16	16-17	17-18
Pre-school	203	202	191	8	8	19	0	4	4
1 st Cycle	675	654	649	61	54	56	2	15	11
2 nd Cycle	260	272	300	34	41	45	0	9	13
3 rd Cycle	433	417	411	60	55	56	5	15	14

CEF TN2	0	16	0	0	3	0	0	0	0
Vocational	52	17	0	0	4	0	0	0	0
Sec. Reg.	218	209	205	5	7	34	6	9	7
Sec. Prof.	155	178	231	3	4	---	2	1	2
Total	1996	1965	1987	171	176	210	15	53	51

Table 2: Overview of the distribution of the number of students between 2015 and 2018.

	Pre-school I	1 st Cycle			2 nd Cycle			3 rd Cycle			Total students BE
		1 st	2 nd	3 rd	4 th	5 th	6 th	7 th	8 th	9 th	
17/18	191	166	147	147	189	147	153	137	137	137	1551
16/17	202	155	158	194	171	158	127	160	138	141	1604
15/16	203	145	206	172	169	139	135	150	154	146	1619

Table 3: Evolution of the number of students between 2015/2018.

The schools' cluster covers all the civil parishes of the municipality in what concerns secondary education, except for the civil parishes of Branca and Ribeira de Fráguas. It also welcomes students from nearby municipalities.

Putting into perspective the figures depicted in table three, it is possible to verify a decrease in the number of students enrolled, about 6%, reflecting the resident population's negative growth trend. Thus, the number of classes has also decreased over time.

Secondary Education						Total students Secondary and Professional Education
Regular			Professional			
10 th	11 th	12 th	10 th	11 th	12 th	

17/18	66	69	70	101	73	57	436
16/17	82	72	65	83	57	45	404
15/16	100	65	67	62	48	55	397

Table 4: Secondary Education Student Population between 2015/ 2018.

In what concerns secondary education, it is essential to point out that the aforementioned trend is not visible in this stage; there is even a tenuous growth in enrollments, particularly in vocational courses (table four).

It is also relevant to highlight the exponential growth of the number of students requiring financial support, as well as the growing number of students with special educational needs (SEN) and students who speak Portuguese as a Second Language.

Bands	Pre-school			1 st Cycle			2 nd Cycle			3 rd Cycle			Sec. Regular			Sec. Professional			Total		
	A	B	C	A	B	C	A	B	C	A	B	C	A	B	C	A POPH	B POPH	C	A	B	C
17/18		192		173	122	-	91	49	19	110	76	25	26	29	7	38	4 3	8	438	319	59
16/17		202		180	122	-	87	60	-	121	73	-	33	28	-	21	3	-	442	286	0
15/16		203		196	125	-	85	61	-	131	95	-	26	38	-	18	2 4	-	456	343	0
14/15		199		196	134	-	98	66	-	127	113	-	23	81	-	24	2 7	-	468	421	0

Table 5: School Social Action Beneficiaries between 2015 /2018.

Regarding school social action, the presented variation is attributed to the budgetary consolidation measures decided under the economic and financial adjustment program taking place during these years.

6.4. Parents', Guardians' Qualifications and Socio-professional Situation

The following table presents data concerning parents' /guardians' academic qualifications based on the collection of documental information, data on the MISI platform, and the analysis of outputs retrieved from socio-economic questionnaires answered by 4097 parents/guardians.

Academic Qualifications	Father	Mother
Higher Education	481	522
Secondary Education	404	430
Basic Education (2 nd and 3 rd Cycle)	880	917
Primary Education (1 st Cycle)	198	141
Do not have any qualification	7	9
Unknown	77	31

Table 6: Parents' and guardians' qualifications.

Despite the parents' and guardians' low qualifications level, there has been an increase in the last years in the attainment of academic qualifications both at the secondary education and higher education levels. Hence, there are positive repercussions to be contemplated in the long term, mainly in what concerns young people's academic expectations.

VII. RESULTS

7.1. Success rate per school year

The following table presents data regarding success rates - the schools' cluster, and the national ones - during the triennium 2015/2018.

	Year/Cycle	Success Rate					
		2015/2016		2016/2017		2017/2018 ^{a)}	
		SCAAV	NATIONAL	SCAAV	NATIONAL	SCAAV	NATIONAL
1 st Cycle	1 st -year	98,50%	100%	98,70%	100%	-----	-----
	2 nd -year	90,10%	91,1%	100%	92%	-----	-----
	3 rd -year	96,30%	97%	100%	97,8%	-----	-----
	4 th -year	96,90%	97,5%	99,40%	98%	-----	-----
2 nd Cycle	5 th -year	85%	93,2%	99,30%	93,30%	-----	-----
	6 th -year	96%	93,3%	98,40%	93,90%	-----	-----
3 rd Cycle	7 th -year	91%	87,4%	96,60%	87,80%	-----	-----
	8 th -year	97,20%	92%	100%	92,90%	-----	-----
	9 th -year	94%	91%	98,50%	92,10%	-----	-----
Sec. Ed/ Profession ai Courses	10 th -year	85,39%/93,3%	84,5% / 98,4%	89,73%/98,73%	84,6%/91,06%	-----	-----
	11 th -year	96,83%/100%	91,3% / 99,2%	92,86%/100%	90,9%/99,2%	-----	-----
	12 th -year	73,85%/84,91%	68,1% / 65,9%	67,21%/95,35%	69,9%/72,3%	-----	-----

Table 7: The schools' cluster's and national success rates data, in the triennium 2015/2018.

a) For updated data go to Annexes.

On the whole, the success rate verified in the organic unit is higher than the one verified at the national level. This evolution is more visible in the first cycle, as put into evidence by the reference data.

7.2. Educational Underachievement, School Dropout, and Absenteeism Analysis

The current composition of the schools' cluster of Albergaria-a-Velha was constituted back in 2012/ 2013. The present educational project includes data referring to the triennium 2015/ 2018 - Tables eight, nine, and ten.

1st Cycle

	No. of Students			
	Enrolled	Retained due to underachievement	Risk of dropping out	Absenteeism
2017/2018^{a)}	-----	-----	-----	-----
2016/2017	654	2	0	1
2015/2016	692	31	0	0

Table 8: Number of underachieving students, at risk of dropping out and absenteeism in the 1st Cycle.

a) For updated data go to Annexes.

2nd Cycle

	No. of Students			
	Enrolled	Retained due to underachievement	Risk of dropping out	Absenteeism
2017/2018^{a)}	-----	-----	-----	-----
2016/2017	272	3	0	0
2015/2016	244	22	0	0

Table 9: Number of underachieving students ,at risk of dropping out and absenteeism in the 2nd Cycle.

a) For updated data go to Annexes.

3rd Cycle

	No. of students			
	Enrolled	Retained due to underachievement	Risk of dropping out	Absenteeism
2017/2018^{a)}	-----	-----	-----	-----

2016/2017	450	5	0	0
2015/2016	431	223	0	1

Table 10: Number of underachieving students ,at risk of dropping out and absenteeism in the 3rd Cycle.

a) For updated data go to Annexes.

Secondary Education

	No. of Students			
	Enrolled	Retained due to underachievement	Risk of dropping out	Absenteeism
2016/2017 ^{a)}	----	----	----	----
2016/2017	219	33	0	0
2015/2016	232	31	0	0

Table 11: Number of underachieving students, at risk of dropping out and absenteeism in secondary education.

a) For updated data go to Annexes.

Professional Education

	No. of Students			
	Enrolled	Retained due to underachievement	Risk of dropping out	Absenteeism
2017/2018 ^{a)}	----	----	----	----
2016/2017	185	2	0	0
2015/2016	165	9	0	0

Table 12: Number of underachieving students, at risk of dropping out and absenteeism in the professional education.

a) For updated data go to Annexes.

VIII. SPECIALIZED SUPPORT SERVICES - INCLUSIVE EDUCATION

The Inclusive Education Service is a resource of the educational community that develops its action from Pre-school education to secondary education. It aims to assess and respond to students' special educational needs to enhance their activity and participation in the school context. Furthermore it seeks to promote the transition to post-school life, from an equitable perspective while valuing the citizen in society. Its team is comprised of specialized teachers, technicians, and psychologists.

The publication of the Decree-Law No 54/2018, of July 6 reinforces the commitment to inclusive education as a process that aims to respond to the diversity of students' needs by increasing the participation of all in the learning process and the life of the school community. Thus, the SCAAV will follow the recommendations issued in the aforementioned Decree-Law in what regards principles, concepts, and measures concerning inclusive education.

IX. EDUCATIONAL AND TRAINING OFFER

The schools' cluster educational and training offer targets children and school-age young people, allowing them to complete compulsory education. The schools' cluster provides courses aimed at pursuing higher education studies, as well as courses directed to the integration in the labor market. It also offers adult education and training courses and certification of competencies for those who have prematurely dropped out of school or have not completed compulsory education.

The schools' cluster promotes an educational and training offer that responds to students' interests and social reality. It seeks to meet the municipality's and the region business sector's needs and strives for a teaching and learning process that develops qualified citizens who can ultimately contribute to a more developed society (Table 13).

Educational Level	Course
Pre-school Education	Pre-school Education
Basic Education	1 st Cycle of Basic Education
	2 nd Cycle of Basic Education
	3 rd Cycle of Basic Education
Secondary Education	Sciences and Technologies
	Socio-economic Sciences
	Languages and Humanities
	Visual Arts
	Health Care Assistant
	Socio-cultural Animator

X. PARTNERSHIPS, PROJECTS AND CLUBS

The network of partnerships, projects, and clubs in existence is organized and developed in articulation and fulfillment of the mission and vision of the SCAAV. The main goal is to promote the quality of education, and the schools' cluster in its various dimensions based on the guiding document earlier mentioned. 3

Tables 14 and 15 identify partnerships, projects, and clubs connected to the schools' cluster:

10.1. Partnerships

Entities	Objectives
Albergaria-a-Velha City Council	<ul style="list-style-type: none"> <input type="checkbox"/> Facilitate student mobility by providing means of transport; <input type="checkbox"/> Support the production of audiovisual content by keeping in close contact with the world of work; <input type="checkbox"/> Logistic support, equipment-wise, on the development of and participation in national and international projects and competitions; <input type="checkbox"/> Resource provisions for hygiene, cleaning, and maintenance of the pre-school and 1st cycle establishments of the cluster.
Municipal Library of Albergaria-a-Velha	<ul style="list-style-type: none"> <input type="checkbox"/> Support with human and material resources the registration of the school libraries documentary fund; <input type="checkbox"/> Promote/articulate reading engagement activities.
CCTIC - University of Aveiro	<ul style="list-style-type: none"> <input type="checkbox"/> Support the promotion and guidance of projects in different areas of ICT.
Layer tech	<ul style="list-style-type: none"> <input type="checkbox"/> Develop, in a work training context, multimedia and programming solutions for different platforms.
Family Support Centre and Parental Counseling	<ul style="list-style-type: none"> <input type="checkbox"/> Monitor at-risk families in order to create the necessary conditions or enhance the provision of the resources required.
Child and Youth Protection Commission	<ul style="list-style-type: none"> <input type="checkbox"/> Accompany at-risk students and their families.
Health Care Center	<ul style="list-style-type: none"> <input type="checkbox"/> Develop health-related awareness activities and support the students in health issues.
Civil Protection/ Firefighters	<ul style="list-style-type: none"> <input type="checkbox"/> Develop/collaborate in prevention and safety activities.

Security Force/ Safe School	<input type="checkbox"/> Support the schools' cluster in relation to school safety; <input type="checkbox"/> Develop safety awareness activities with the school community.
Business and local commerce	<input type="checkbox"/> Promote pedagogical internships.
Parents' and Guardians' Association	<input type="checkbox"/> Collaborate in the implementation of projects and the annual plan of activities; <input type="checkbox"/> Collaborate in the school-family relationship.
Universidade Católica Portuguesa	<input type="checkbox"/> Promote awareness-raising activities and professional development training for the schools' cluster teachers; <input type="checkbox"/> Via an external expert, collaborate on the schools' cluster process of self-evaluation and in the design of supporting tools to enhance collaboration and implementation of the Educational Project.

Table 14: Partnerships developed by the schools' cluster.

3 Students' Profile by the End of Compulsory Schooling

10.2. Projects and Clubs

Education Level	Project / Club	Objectives
All	CanalB	<input type="checkbox"/> Reconciling training and information more appealingly; <input type="checkbox"/> Strengthen the bond with the region by being a means that creates knowledge synergies between different communities - educational, business, trade, and cultural; <input type="checkbox"/> Produce audiovisual content regarding main activities scheduled on the schools' cluster's annual activity plan; <input type="checkbox"/> Enhance different internal media communication channels within the schools' cluster; <input type="checkbox"/> Support the production of media content across different subjects/classes or collaborative projects.
All	Science at School - Ilídio Pinho Foundation	<input type="checkbox"/> Foster students' interest (from pre-school, 1st, 2nd, and 3rd cycles to secondary) in science and technological areas by developing projects for competitions.
Secondary	4x4 Jaguar/ Land Rover – Multidisciplinary Team Project	<input type="checkbox"/> Encourage secondary students to use engineering tools, collaborate, design, analyze, manufacture, test, and operate a remote-controlled 4x4 vehicle; <input type="checkbox"/> Use ICT to learn physics, mechanics, electronics, design, manufacturing, branding, sponsorships, marketing, leadership, teamwork, communicative skills, and financial strategy.

Basic and Secondary	Make Praeaav – Robotics Club	<ul style="list-style-type: none"> ➤ Promote computational thinking through programming and robotics, stimulate analytical thinking, problem-solving, collaborative work, and creativity (targeted at 1st cycle students to secondary students).
All	School Libraries Network	<ul style="list-style-type: none"> ➤ Assert itself as an inclusive space for innovation, a strategic center for project development, and flexible curriculum management; ➤ Develop new literacies, initiative, and creativity.
2nd, 3rd CBE and Secondary	School Sports	<ul style="list-style-type: none"> □ Promote access to regular sports practice; □ Contribute to students' academic success; □ Contribute to the promotion of healthy lifestyles, values, and principles associated with active citizenship.
Professional	Erasmus +	<ul style="list-style-type: none"> ➤ Strengthen the development of skills and employability, as well as support the updating process of educational systems, training, and youth support systems; ➤ Reduce the "skills gap" within the European space.

Table 15: The schools' cluster projects and clubs.

XI. SWOT ANALYSIS

The SWOT analysis is a vital tool, as it synthesizes a vast amount of information. The latter was previously analyzed and systematized from various sources: databases, questionnaires, interviews, internal and external evaluation reports (2015/17), the Director's intervention project, and the improvement plan. From the application and triangulation of the various sources emerges a strategic diagnosis with its expression in the synthesis matrix. Four fields cross the schools' cluster's strengths and weaknesses and the opportunities and threats it faces.

Strengths	Dimension	Weaknesses
Adequacy of academic results to the reality and context of the schools' cluster.	1	The gap between internal and external evaluation across all cycles.
Positive impact on the self-regulation learning process.		Students' lack of responsibility and commitment due to low academic expectations.
Reduction of dropout and absenteeism rates.		Educational underachievement at some level in internal evaluation and external evaluation.
Use of ICT in the teaching and learning process.		Some students reveal indiscipline and lack of citizenship values.
Diversity and scope of the educational and training offer.		Difficulty and apathy concerning the construction of a life project.
Diversity and scope of the educational and formative offer.		Lack of engagement and joint accountability of parents and guardians in the educational process.
Integration and training practices fostering equal opportunities and academic success aimed at students with special educational needs.		Poor coordination practices between educational cycles and subject areas.
Good interaction between school libraries and curricular departments.	2	Difficulties in terms of interdisciplinary planning and the definition of differentiated pedagogical strategies.

Relevant educational support and curriculum complement offers.

Difficulties in the implementation of the internal training plan due to lack of in-house resources.

Poor organizational culture.

An insufficient number of 2nd cycle mathematics teachers to cover study support needs.

Strengths	Dimension	Weaknesses
Effective performance of the services and provision of adequate services to the educational community and public.	3	A decrease in the number of events promoting socialization.
The management body reveals openness to new ideas and the school community's projects and shows collaboration.		Parents and guardians lack knowledge of the schools' cluster's modus operandi.
The students' association is committed and proactive. Parents and guardians trust in the quality of teaching provided.		Lack of equity in human resources management.
There is a self-evaluation team responsible for monitoring and evaluating the schools' cluster operations.	4	Fragility in the self-evaluation process, in terms of impact on the improvement of results. Lack of follow-up mechanisms in what regards post-school life.

Table 16- SWOT analysis (Internal Environment).

Opportunities	Dimension	Threats
Participation in national, international projects and European programs.	1	Teacher mobility as a continuity factor of the school project..
External funding of projects.		Insufficient human and material resources.
Appropriate socio-economic factors leading to the creation and development of actions as well as as collaboration in joint projects.		Restrictive policies in the allocation of non-teaching staff. Unstable legal framework.
Quality and diversity of partnerships and protocols with institutions in the surrounding area.	2	Emigration and migration phenomena associated with the school's population decrease.
Cooperation with local industry to implement professional and vocational internships and facilitate the transition into adult life.	3	Competition with other schools / schools' clusters to get students. Parents' low level of education.

Companies show openness and are available to support the schools' cluster goals and its activities.

4

Improper facilities in some schools of the cluster.

Table 17 - SWOT Analysis (External Environment).

XII. ACTION PLAN

The following action plan aims to facilitate learning and foster young people's holistic development. It seeks to meet the proposed objectives taking into account improvement aspects and by implementing strategic guidelines to achieve quality and academic success. Four intervention domains scaffold the plan: results; provision of educational services, school - family - community relationship; and the schools' cluster ability to self-regulate and improve.

Table 18: Summary of actions per domain.

XIII. GENERAL OBJECTIVES

13.1. Definition of the general objectives

- Promote cooperative and relational learning through innovative teaching practices and curricular options that are more effective and appropriate to the context;
- Develop learning improvement actions based on a multilevel approach;
- Ensure an inclusive school able to respond to the heterogeneity of students;
- Promote greater articulation between the three cycles of basic education and secondary education;
- Enhance the management and also an interdisciplinary and articulated teaching approach of the curriculum;
- Promote the transdisciplinary nature of learning;
- Enhance collaborative and interdisciplinary work approaches in the planning, implementation, and assessment of teaching and learning;
- Engage students, parents/guardians, and partners in the identification of the school's curricular options;
- Foster citizenship education, personal and interpersonal development as well as social intervention;
- Take preventive measures in order to face problem situations and indiscipline.

XIV. MONITORING AND EVALUATION

The current Educational Project (EP), a benchmark paper for the Schools' Cluster of Albergaria-a-Velha, intends to be a dynamic document under permanent construction. Its design focuses on four areas of intervention: academic and social results, provision of educational services, school-family-community relationship, and the schools' cluster ability to self-regulate and improve. It should be perceived as a reference, shared, and owned by all educational community members as a process under construction.

The attainment and achievement of objectives and goals set in this project rely on how they will be monitored and evaluated. Hence, this document contemplates formal and precise evaluation moments, as well as reporting and evaluation tools to cover the identified areas of intervention. All data provided by the SCAAV will be considered evaluation indicators and will be analyzed by the internal evaluation team regularly. Data will be used as a means to verify the attainment of objectives and the achievement of pre-established goals.

The monitoring of the actions included in this action plan will be carried out quarterly by those responsible for them. The EP evaluation should be carried out at the end of each school year and at the end of the four years to which it refers to. Furthermore, the internal evaluation team will produce a report to bring visibility to the accurate monitoring of the various goals and their feasibility degree. The evaluation process will also allow for a review/readjustment of goals and objectives, as well as an informed position on strategies or ways of implementation that may be more coherent and appropriate to the attained results.

XV. COMMUNICATION AND DISSEMINATION OF THE PROJECT

For the development and implementation of the Schools' Cluster Educational Project, all members of the educational community must assume it as their own. Bearing this into account, the document is to be disclosed by the Pedagogical Council and disseminated in general teachers' meetings, curricular department, and subject areas meetings, in public sessions with the students' association, class

representatives' assembly, and in the parents' and guardians' association. Upon approval by the General Council, it will be sent by email to all teaching staff, non-teaching staff, parents' and guardians' association, and published on the schools' cluster's web page.

We are what we do. What is not done does not exist.
Therefore, we only exist in the days we
do. In the days we don't, we just last.

Padre António Vieira

Complimentary Offer c)	50	50		
Arts Education Complement	100	2x50		
TOTALS	1300	1300	50	
TOTAL	1350			

Description:

- a) Optional attendance, mandatory for students indicated by the Educational Team;
- b) 50', on one-semester Citizenship and Development and the other ICT;
- c) Discovery and Experimental Practice (implementation subjected to credit hour availability).

Note: A break is mandatory in between sequenced teaching times of subjects (i.e., 50'+ 50'), with the exception of Physical Education.

CAD – Curricular Autonomy Domains:

- a) operating throughout the school year;
- b) a week per school term. This curriculum option is exclusively targeted at the development of interdisciplinary work and curriculum articulation. Planning of activities should identify subject areas, mode of participation, and organization;
- c) CAD planning will be designed by each Educational Team;
- d) during this week, students' and teachers' school time is expressly set; it is not subjected to a pre-specified timetable; this does not increase nor reduce teaching time.
